System Features

- Self-tracking/management solution
- Latest satellite location technology
- Journey history
- Smartphone App
- Web Portal
- 5yr Warranty
- European Coverage
- Driver Recognition (optional)
- Engine Immobilisation (optional)
- Vehicle Alarm Trigger Notification (where applicable)

Please note Meta Trak LITE is NOT an insurance approved Stolen Vehicle Tracking system. Meta Trak Shield is a self-managed tracking solution which IS NOT monitored by Meta Trak for theft.

Subscription Documentation

You will have received an email when your system was activated by your dealer.

This email provides you with:

1. Details of how to log-in to the web portal and smartphone app.
2. Links to download the smartphone app.
3. Your contract information.

Please check all information is correct!

Alerts

Battery Disconnection (Power Sabotage)

In the event of battery disconnection, a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running).

Should you need to disconnect the vehicle battery for maintenance reasons you should first set the system to '**Maintenance Mode**' via the app or web portal in order to avoid generating a false alert.

REMEMBER to set the system back to '**Active Mode**' once the maintenance is completed.

Applies to T75 Telematics Siren only

If the vehicle battery power is disconnected without first setting the device in **Maintenance Mode** the siren will be triggered.

GSM Jamming (T75 Telematics Siren)

The siren will be triggered if there is an attempt to jam the GSM communications network.

Tow-away

In the event of a vehicle movement without the engine running a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running).

Should you need to **transport** the vehicle or travel by ferry you should first set the system to '**Transport Mode**' via the app or web portal in order to avoid generating a false alert.

REMEMBER to set the system back to '**Active Mode**' once the transportation is completed.

Vehicle Alarm Triggered (where applicable)

In the event of the vehicle alarm being triggered a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running).

Low Vehicle Battery

In the event of the vehicle battery becoming low a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running).

Driver ID Tag Not Recognised (Optional)

Where the optional Driver ID tag has been made available the tag should be either attached to the vehicle keys or present on the driver's person.

ID Tag

Fig. 1

In the event of the **vehicle being driven WITHOUT** the Driver ID Tag a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running).

NOTE: the **push button** of the Driver ID Tag is **NOT REQUIRED** to be used in normal operation.

Driver ID Tag Battery Low

In the event of the ID Tag battery becoming low a **push notification** will be sent to your smartphone (provided you have the Meta Trak app running). **Replace as soon as possible!**

Maintenance

Replacing the ID Tag battery

Battery Type: CR2032

Carefully prise apart the upper and lower parts of the ID tag.

Slide out the battery observing the orientation.

Slide in the new battery in the same orientation.

Re-assemble the tag; normal operation will be resumed.

Warranty

Meta Trak hardware includes a 5 year parts warranty.

Change of details or Registered keeper

Please inform us as soon as possible of any changes to your contract information.

Such as:

- Changes to contact numbers
- Change of vehicle registration
- Change of email address
- Change of registered keeper
